

J. NAGASAI

Chennai, India | 8688180266 | Email | GitHub | LinkedIn

PROFESSIONAL SUMMARY

AI/ML Engineer specializing in Generative AI, LLM applications, RAG systems, and scalable intelligent platforms. Built production tools including interview automation, healthcare assistants, financial forecasting engines, and multi-agent AI workspaces. Focused on efficient backend architectures, model deployment, and real-world business impact.

EDUCATION

B.Tech – Computer Science (CSE – AI & Data Science)

SKILLS

Programming: Python, SQL | **AI/ML:** ML, DL, NLP, RAG, Transformers | **Frameworks:** TensorFlow, Scikit-learn, LangChain | **Backend:** FastAPI, Flask, Streamlit | **DB:** SQLite, FAISS | **Tools:** Git, Docker, Linux, Hugging Face

PROJECTS

AI Interviewer – Intelligent Interview Simulation Platform

• Built resume-aware mock interviews • Adaptive questioning • LLM+RAG pipelines • Automated scoring • Performance analytics • Structured feedback.

AI Doctor – Intelligent Medical Diagnosis Assistant

• Symptom-based disease prediction • ML risk models • Medicine reminders • Health tracking • Report analysis • Accessible healthcare assistant.

Stock Price Predictor – Live Web App

• LSTM forecasting • RSI/MACD/EMA indicators • Real-time dashboards • Trading signals • Financial analytics deployment.

GenAI Intelligent Studio – Multi-Mode AI Workspace

• Chat, research, summarization • Agentic workflows • Embeddings retrieval • Contextual grounding • Fast Streamlit UI.

LEADERSHIP & COLLABORATION

• Led 6-member Smart India Hackathon team • Participated in national AI hackathons • Contributed to open-source ML/AI repositories

HONORS & CERTIFICATIONS

• Oracle OCI – Generative AI Professional (2025) • Best Student Award – Wisdom Path Foundation • India's Biggest GenAI Buildathon (NxtWave) • ML/DL/NLP Bootcamp (Udemy)
